## Scrubber Name

VTC50 Micro Carbon Canister with Fan

## Description

Stainless steel carbon canister designed for low vapor flows. Excellent for use in labs and sampling stations. Removes many types of compounds from the air including hydrocarbons. Stainless steel construction equals long term dependability. Top removes for easy maintenance and carbon removal/replacement.

## Specifications

|                                    |                                 |
|------------------------------------|---------------------------------|
| <b>Dimensions</b>                  | 12" x 25"                       |
| <b>Materials of Construction</b>   | Stainless Steel                 |
| <b>Vapor Inlet</b>                 | From 1/4" to 1" (NPT or Flange) |
| <b>Vapor Outlet</b>                | From 1/2" to 3" (NPT or Flange) |
| <b>Max. Flow Rate</b>              | 50-80 c.f.m.                    |
| <b>Max. Pressure</b>               | 80 psi                          |
| <b>Carbon Capacity</b>             | 30#                             |
| <b>Loaded Weight</b>               | 65#                             |
| <b>Options Available</b>           | Vent Fan (shown below)          |
| <b>Breakthrough Indicator Port</b> | Optional 3/4" NPT               |
| <b>Service Port</b>                | Top is Removable                |
| <b>Notes</b>                       | Fan Available in 115V or 230V   |
